

Core Competencies

Practical Products is a Service-Disabled Veteran Owned Small Business based in Lafayette, Indiana that manufactures and sells commercial-duty padded strap technologies that assist operators in transporting large/heavy materials. The system in its current iteration offers distinct improvements in ergonomics and efficiency when transporting loads along the ground with a tarp.

- Flagship product The Apparatus for Navigating Tarps (A.N.T.)
- Used for dragging tarps filled with any/all kinds of debris.
- Ergonomic and efficient solution for moving heavy tarps.
- Can empower anyone to be a disaster cleanup agent. At scale, each person's efforts contribute toward the larger mission.
- Best paired with heavy-duty tarps (also available).

Differentiators

Because The A.N.T. is a novel product, it has no direct competitors. It is the only system on the market that mimics the speed and efficiency of a truck and trailer with just a person and tarp.

- Faster, safer, and easier than traditional tarping
- Able to be implemented at individual level
- No need for fuel. Works on manpower alone.
- USA-made with high-strength materials.
- Protected by U.S. Patents 9,992,938 & 10,638,673

Past Performance

- Heritage Landscape Supply Group - McKinney, TX
Construction Material Wholesaler
- Indianapolis Cultural Trail - Indianapolis, IN
Nonprofit public space
- LML Estate Management - Indianapolis, IN
High-End Landscaping Services
